

Is remote learning stressing you out? Are you concerned that your child will have gaps in their learning? Are you worried that your child's speech, language, social skills, reading or writing may regress? Do you need someone to engage your child in learning?

Research has shown that Speech-Language Pathology services contribute significantly to the academic success of students.

All in 1 SPOT provides high quality therapy for everyone in the comfort of your home.

You can now connect with the perfect therapist, wherever you are, with a laptop, computer or tablet.

Therapy should not be restricted by a zip code. You can now have increased access to therapy covered by many health insurances, or private pay.

With over 120 providers, we offer comprehensive evaluations and therapy services including: Speech therapy; Occupational therapy; & Physical therapy.

We match our patients with our therapists to provide the highest quality therapy in a live, secured, online face to face setting.

Benefits of Teletherapy:

- Protect your family's health during COVID-19 restrictions.
- Provide structure for your child by continuing regular speech therapy and reducing risk of relapse.
- Access recorded sessions to continue progress.
- Research has shown the effectiveness of telepractice. Online sessions are nearly identical to in office sessions.
- Be an active participant in your child's speech therapy.

Please fill out the form below to schedule your free telepractice consultation and get started, or email us at theratalk@allin1spot.net
